This year, the International Seminar will be held in partnership with **Tor Vergata University** and **Roma Tre University**, with the main theme: “International Academic Cooperation: Towards a Sustainable, Inclusive and Multicultural World.”

The events are supported by the Embassy of Brazil in Rome, as part of the celebrations of the 150 years of Italian immigration to Brazil.

The **University of Rome Tor Vergata** was established in 1982 and is structured in 6 Schools (Economics; Law; Engineering; Humanities and Philosophy; Medicine and Surgery; Mathematics, Physics and Natural Sciences) which are organised in 18 Departments.

For the Academic Year 2017-2018 Tor Vergata offers 107 degree courses (bachelor, master and single cycle degree) and 31 PhD courses (taught in Italian or English).

As far as international relations are concerned, the University of Rome Tor Vergata counts more than 500 bilateral and cultural/scientific cooperation agreements with partner Universities worldwide to promote joint research programmes and academic exchanges. Among those the most prestigious Universities of Brazil, but also the George Washington University (for bilateral student mobility with traineeships from 4 to 8 weeks - for the first time in Italy); Harvard University (to support innovative teaching and research programmes, clinical practice, fight against cancer and exchanges for the best students and researchers); the University of Oxford; the University of California, Irvine (to promote cooperation in science and didactics through joint programmes and research projects, academic activities and training in fields of shared interest).

Roma Tre University is a young university thought for young people. Founded in 1992, it has rapidly grown both in terms of students and courses offered. It has gained an excellent rating among the most prominent academic rankings, especially within the younger universities.

Roma Tre University is organized in 13 departments offering Bachelor's and Master's Degrees, Postgraduate and Advanced courses, PhDs and Specialisation Schools.

Among its founding values, Roma Tre assumes the promotion and organization of high-quality international research, the excellence in advanced education as well as in the development and dissemination of knowledge, the environmental protection, the international solidarity, the principles of gender equity and the evaluation and recognition of merit.
